# Introduction

The NETsec LogViewer was specifically designed to open log files from a NETsec software solution. It allows you to easily search for, and analyze log entries.

It's possible to install the NETsec LogViewer as a standalone product.

However, it's not necessary to install the NETsec LogViewer if you've already installed a NETsec software solution. The NETsec LogViewer can be found in the solution folder.

# **System Requirements**

Components	Required
OS (64Bit)	Windows 10 Windows 11 Windows Server 2016 Windows Server 2019 Windows Server 2022
Hardware	Processor: minimum dual core RAM: minimum 4 GB
Software	.NET Framework 4.8 and later

\*Microsoft stopped supporting for Windows Server 2012 and Windows Server 2012 R2 on the 10th October 2023.

As much as we would like to keep up compatibility for all versions, we cannot support an Environment, which is no longer supported by the manufacturer.

# Installation

The NETsec LogViewer mainly comes with the installation of a NETsec software solution. Otherwise, it can be installed as standalone software.

**.NET Framework 4.8** or later is a prerequisite. All other required components for NETsec LogViewer will be installed during the installation.

#### By default, the program will be installed to

C:\Program Files\NETsec LogViewer\

This can be changed during the installation process.

🔀 NETsec LogViewer Setup	×
Select Installation Folder	LOG
The installer will install NETsec LogViewer to the following folder.	
To install in this folder, click "Next". To install to a different folder, enter it	
Folder:	
C:\Program Files\NETsec LogViewer\ Browse	
Create a shortcut for this program on the desktop.	
Create a startmenuentry for this program.	
Reset < Back Next > 0	Cancel

A shortcut for this program on the desktop will be created, if desired.

# **Open a log file**

There are three available options to open a log file:

**1.** Drop a log file on the NETsec LogViewer icon to open it.

2. Use Open from the ribbon menu, and select a log file to open it.

#### Filter

The NETsec LogViewer includes all columns for the search by default.

Set Filter opens the Select filter columns dialog

Uncheck Select All to select only the columns in which to search.

For example, the columns **Typ**, **Source** and **Message** columns have been selected below.

Next click **Apply filter**. The dialog will close and the filtered columns are now marked with a filter icon.

une en e	- □ >	<						
는 Open 层 Sav	re 🏼 🍸 Set Filter 🏹	Clear Filter					🔎 🔎 Clear Search	
Timestamp	Policy	тур	Code	Task	Thread	Source		

The NETsec LogViewer will now only search in the selected columns.

#### Add a column to the filter or remove a column from the filter

A right-click on the column will open a context menu from which to add, or remove columns from the search filter settings.

<u> </u>			logfile.t	ct - NE
늘 Open 层 Save	ү Set	Filte	r 🏆 Clear Filter	
Timestamp	Policy N	_	Tun	Code
20220427_004845_729	ExportNET	•	Add to Filter	
20220427_004845_729	ExportNETs	Υ.	Remove from Filter	

#### **Clear Filter**

Clear Filter will select all columns for the next search.

LOC	logfile.txt - NETsec LogViewer	- 🗆 ×
🖶 Open 🔚 Save   🍸 Set Filter	🝸 Clear Filter	🔎 🔎 Clear Search

#### **Clear Search**

**Clear Search** will clear the search box and remove the result list, but will not clear the filter settings.

# **Context menu of the result list**

To open the context menu, right-click on a result entry in the result list.

#### **Open details**

Open the NETsec LogViewer Details dialog of selected result entry.

#### **Add to Search**

The cell value where the mouse has opened the context menu of the selected result entry will be added to the search.

#### Save results to file

Saves the results in a separate file, so they can be opened with the NETsec LogViewer.

Insert a file name and save the results.

NETsec LogViewer	×
Do you want to open the saved results?	
Yes No	

Optionally the saved file with the results can be directly opened in a new NETsec LogViewer window.

#### Save

Open log files can be saved as XML file or as CSV file.
